Supporting Our Communities

Your support empowered charities in their communities to support and address organizational and local issues

Having someone like George give back to our community is so huge and beneficial for us... The curling rink and the hall are really the heart of our community and all of those facilities are non-profit, so having donations towards them really does help plan for the future.

Christie Hislop, Former Town of Arcola Administrator

Emerging Issues

Sustaining Rural Communities

Drug Abuse and Addiction

Safety in Communities

Racism towards Immigrants and Indigenous peoples

Homelessness and Affordable Housing

Sustainable Development Goals

Looking beyond economic indicators is the way to improve our communities. The Sustainable Development Goals are a global initiative for nations and communities to improve the wellbeing of all.

Your support will allow us to continue supporting charities that seek to improve your and other residents well being in Saskatchewan.

The grant provided us with funds critical to delivering recreation and social activities that supported the mental, physical, spiritual, and emotional health of our residents while in this status. It allowed us to increase indoor and outdoor activities that enhanced the overall well-being of our residents.

*Tara Fehr, Prairie Wind Estate
Interim Executive Director*

“Poor quality housing. If you receive income assistance your rent will cost more than what is provided.” From the Regina Transition House Inc. conversation

“I am too young for a senior complex. We need group homes for people with physical disabilities just like there are group homes for adults with intellectual disabilities.” From The Big Sky Centre for Learning and Being Astonished Inc. conversation

Let's Do More Together

Make an Impact, Support Your Communities

Figure 3. Trends in the Canadian Index of Wellbeing and GDP (per capita) from 1994 to 2014.

Working to close the gap between Saskatchewan regions and Index of Well-being and GDP

Your contribution allows us to better fund charitable organizations that seek to improve community well-being aligned with a growing GDP

54% of participating communities identified **BELONGING** as the top community indicator. Belonging encompasses various dimensions as expressed by community participants.

32% of participating communities identified **WELLBEING AND MENTAL HEALTH** as the top community indicator. Typically, communities refer to a lack of adequate services that would be necessary to promote physical and mental health.

Let's Do More Together

Meeting the Needs of Communities

Challenges Facing Charities

Loss of revenue is greatest impact to charities

Delivery of Virtual Programs resources and training

Mental Health Challenges result in staff burnout, isolation, anxiety, etc.

Day-to-Day Operations

Resources and supports needed to make a change as reported by communities (Q3 and Q6):

- Funding and donations, identifying funding sources to meet specific needs
- Communities need more education on safety
- Late closing centres, past 10 p.m.
- Volunteer safety patrol • Bike lanes • Better lighting in alleys.
